Clematis viticella 'Etoile Violette'
CLEMATIS ETOILE VIOLETTE

FULL SUN OR LIGHT SHADE | HEIGHT 10-12' | TWINING VINE | ATTRACTS BUTTERFLIES | KEEP ROOTS COOL | PROLIFIC BLOOMER

Who can resist the extremely dainty, bell-like flowers of the Clematis once they have seen these rosy-purple flowers in their full summer color? Even in small spaces this prolific bloomer commands attention. Clematis vines are a long established favorite rambling on trellises, mailboxes, and lampposts. Prune stems above a set of healthy buds, 6-12 inches above the soil, to maintain a small flowering plant. Mulch the soil beneath the Clematis to keep the roots cool and moist. Etoile Violette blooms July through September. Hardy in Zones 2-9.
