Tiarella cordifolia 'Eco Running Tapestry'

(ti-a-rel'a)

FOAMFLOWER

PART SHADE TO FULL SHADE	HEIGHT 12-16"	SPREAD 18-24"	WOODLAND GARDEN	BORDERS AND EDGING	GROUNDCOVER

I like the season-long interest and shade tolerance of foamflowers. This variety's attractive foliage adds to the appeal. The exquisite, velvety, heart-shaped foliage is marbled black and olive green, and displays light pink, frothy looking, bottle brush-like flowers in June. Ideal in the woodland garden, as edging, in borders, or as a shade loving low groundcover. Grow in rich, moist soil in part shade to full shade. Feed with a liquid or slow release fertilizer. This plant is hardy in zone 4. Melinda Myers
