PINK DOUBLE DELIGHT CONEFLOWER

FULL TO PART SUN	HEIGHT 20"	SPREAD 12"	ATTRACTS BUTTERFLIES	CUT FLOWER	PRAIRIE GARDEN

Compact growth and long lasting blooms make Pink Double Delight a favorite in my garden. This coneflower has flower heads with a ring of bright pink petals, like a hula skirt, that surround a large pom-pom center with hundreds of tiny pink florets. The flowers attract butterflies and the seed heads attract songbirds to the garden. It is a fast grower that is perfect for planting in the border garden, prairie garden, or in containers. The flowers bloom from July to September on sturdy stems and are perfect as a cut flower in fresh or dried arrangements. This coneflower is drought tolerant, but thrives in full to part sun in rich, well-drained soil. It is hardy in Zones 4-9.
