Knock Out® Pink is one of my favorite shrub roses! It delivers reliable, vibrant color with outstanding blooming capability. The brilliant pink flowers bloom profusely from spring until late fall with a mild, soft fragrance. The compact foliage is black spot resistant and turns an attractive dark purplish-green to burgundy in fall. This shrub rose is virtually maintenance free and very winter hardy, with orange-red hips that attract birds to the garden in winter. It is a beautiful addition in mass plantings or mixed shrub and perennial borders. Grow it in full sun in moist, well-drained soil. It is hardy in Zones 4-10. Apply a 2-3" layer of mulch or organic material to conserve moisture and improve the soil.
