## Berberis thunbergii 'Rose Glow' ROSE GLOW BARBERRY

FULL  
SUN

HEIGHT  
4-5'

SPREAD  
5-6'

ATTRACTS  
BIRDS

UNIQUE  
FOLIAGE COLOR

GOOD  
FALL COLOR

I find this small, ornamental shrub has unique, new foliage that starts out a rose-pink with mottled reddish-purple splotches, maturing to a dusky, dark reddish-purple. This handsome shrub has brilliant red fall color, good form, and showcases its popularity in the landscape as an accent, low hedge, or rock garden specimen. In my garden the berries and shrub structure provide a popular habitat for birds. Grow in well-drained soil and full sun for more vivid foliage color. Apply a 2-3" layer of mulch or organic material to conserve moisture and improve the soil. Hardy in Zones 4-7.
